Glucose, alterations of plasma free fatty acids and, during labor (Whaley et al.), 875
tolerance tests, oral and intravenous, in pregnancy, comparative validity of (Benjamin and Casper), 488
Glycine, radioactive, uptake and incorporation of protein into, by human placentas in vitro (Sybulski and Tremblay), 1111
Gonadotropin deficiency, pituitary, clomiphene treatment of prolonged secondary amenorrhea associated with (Spellacy and Cohen), 943
human chorionic, immunization with, pregnancy in rabbit following (Glass and Mroueh), 1082
Gonorrhea, treatment of, in female, clinical evaluation (Shapiro and Lentz), 968
Growth and development, fetal, hormone excretion as measurement of (Macnaughton), 998 (Current developments)
Gynecic stress, nutritional aspects of (McGanity, Fujino, and Dawson), 750
Gynecologic malignancies, megavoltage therapy for (Holzaepfel and Pomeroy), 625
Gynecology, art of, in computer age (MacLennan), 590

H

Habitual abortion, some cytogenetic aspects of (Jacobson and Barter), 666
Heart rate, relationship between blood pH and, in human fetus during labor (Mendéz-Bauer et al.), 530
Hemoglobinopathies, whole blood oxygen affinities of women with various (Moore, Battaglia, and Hellegers), 63
Hemorrhage, fetomaternal, from diagnostic transabdominal amniocentesis (Wang, McCutcheon, and Desforges), 1123
Hemorrhagic stress, fetal responses to material oxygen inhalation during (Boba, Linkie, and Plotz), 919
Heparin in treatment of hypofibrinogenemia complicating fetal death in utero (Lerner et al.), 373
Histologic grading and 5 year survival rates in endometrial carcinoma, correlation of (Roman, Beck, and Latour), 117
Heterochromatic X chromosome in human females, cyclic activation of, further evidence for (Reisenberg et al.), 91
Hofbauer cell, derivation and ultrastructure of so-called (Wynn), 235
Homograft survival, interference of cortisone-induced, by progestins (Hulka and Mohr), 407 (Current investigation)
Hormone assays, serial, in patients with uteroplacental insufficiency (Bell et al.), 562 (Current investigation)
excretion as measurement of fetal growth and development (Macnaughton), 998 (Current developments)
release, neurohypophyseal, in human (Cobo et al.), 519
sex, sex chromatin and (Dokumov and Spasov), 714 (Current investigation)
Human chorionic gonadotropin, immunization with, pregnancy in rabbit following (Glass and Mroueh), 1082
quantitative assay of (Haskins), 777
villi, fine structure of, and placental transfer of iron in late pregnancy (Salazar and Gonzaléz-Angulo), 851
placental lactogen level as measurement of placental function (Spellacy, Cohen, and Carlson), 560 (Current investigation)
Hydrocortisone, chicken plasma, sheep plasma, vitamin A, and, in syncytial dissolution (Carr), 252
5-Hydroxyindole metabolism, ceruloplasmin and, in pregnancy (O'Reilly and Loncin), 8
5-Hydroxytryptamine level in rat placenta and fetuses, influence of phenelzine on (Lesinski, Kurzepa, and Samojlik), 249
Hypercarbia, maternal and fetal, and fetal death in utero, changes in rhesus monkey amniotic fluid pH, pCO_2, and bicarbonate concentration following (Seeds et al.), 67
Hyperplasia and carcinoma of endometrium, chromosomes of atypical (adenomatous) (Katayama and Jones), 978 (Current investigation)
Hypertensive pregnant and nonpregnant animals, electrolyte changes in aortas of (Douglas, Carrier, and Garret), 1092
Hypofibrinogenemia complicating fetal death in utero, heparin in treatment (Lerner et al.), 373

Transfer, placental, mental exercises in (Shapiro, Kirschbaum, and Assali), 130 (Current developments)
Transfusions, intrauterine fetal, for erythroblastosis (Friesen et al.), 343
Trauma, blunt external abdominal, causing fetal death (Atlay and Prysor-Jones), 577 (Comm. in brief)
Trichomonal vaginitis: Epidemiology and therapy (Peterson et al.), 472
Trophoblastic transplants, ultrastructure of isogeneic and allogeneic (Simmons, Cruse, and McKay), 218
Tubal sterilization (McElin, Buckingham, and Johnson), 479
Twins, amniotic sac dystocia in (Nickerson), 867 (Comm. in brief)
Tumor, mixed mesodermal, of ovary (Edghill, Gardiner, and Hayes), 578 (Comm. in brief)
ovarian and parovarian, in infants and children (Thompson et al.), 1059

U

Ultrasonic fetal cephalometry, evaluation of (Kohorn), 553
Uptake and incorporation into protein of radioactive glycine by human placentas in vitro (Sybulski and Tremblay), 1111
Urinary bladder care after vaginal operation (Shipkowitz and Mengert), 828
incontinence, management of anatomic, by vaginal repair (Low), 308
tract diversion, lower, management of pregnancy following (Kohler), 1149 (Comm. in brief)
infections, latent, in pregnancy, diagnosis (Devi et al.), 39
Uterine adnexa, torsion of (Lee and Welch), 974
bleeding in prepubertal rhesus monkeys after intrauterine contraceptive device insertion (Kar and Chandra), 279 (Comm. in brief)
blood flow in pregnant rhesus monkey (Meschia et al.), 1
cervical epithelium of fetal and immature human females in relation to estrogenic stimulation (Graham), 1033
contractility, effect of meperidine on, during pregnancy and prelabor (Sica-Blanco, Rozada, and Remedio), 1096
ischemia, chronic, and reversible toxemia of pregnancy (Hodari), 597
muscle, human, active length-tension relationship in (Conrad and Kuhn), 154
vascular bed, effect of sympathetic nerve stimulation on (Greiss and Gobble), 962
wall tension in pregnancy, amniotic fluid pressure and, relationship between (Alexander, Turnbull, and Murray), 992 (Pertinent comments)
wrapping, postterm blood pressure elevation produced by (Douglas and Langford), 231
Uteroplacental insufficiency, serial hormone assays in patients with (Bell et al.), 562 (Current investigation)
Uterosigmoidostomy, pregnancy and delivery after (Killam, Grillo, and Summerson), 278 (Comm. in brief)
Uterus, bicornuate, pregnancy in, after insertion of Lippes loop (Vago and Spira), 872 (Comm. in brief)
duplex unicollis, double pregnancy in (Getts), 277 (Comm. in brief)
pregnant, effect of intranasal oxytocin on (DeVoe, Rigsby, and McDaniels), 208
rupture of (Farrell), 332
with sparteine sulfate (Niswander and Nenno), 866 (Comm. in brief)

V

Vagina, cancer of (Rutledge), 635
Vaginal blood pulse, photoplethysmographic study of (Palti and Bercovici), 143
irrigation smear technique, evaluation of (Carrow et al.), 821
operation, urinary bladder care after (Shipkowitz and Mengert), 828
repair, management of anatomic urinary incontinence by (Low), 308
smear, psammoma bodies in, endometrial carcinoma with (Weaver and Wilson), 869 (Comm. in brief)
Vaginitis, trichomonal, epidemiology and therapy (Peterson et al.), 472
Vascular bed, uterine, effect of sympathetic nerve stimulation on (Greiss and Gobble), 962
Venous thrombophlebitis, acute superficial, associated with pregnancy (Aaro, Johnson, and Juergens), 514
Vesicovaginal fistula, management of (Weed), 1071
Villi, placental, in explant tissue culture, human term (Carr), 252
Villous avascularity and its functional significance in 3- to 20-week-old placentas of normal pregnancy (Bădărău et al.), 257
Vitamin A, chicken plasma, sheep plasma, and hydrocortisone in syncytial dissolution (Carr), 252
Vulvectomy, radical, perineal reconstruction following (Trelford, Fitz, and Williams), 1066

Blood flow, arterial, into human intervillous space (Burchell), 303
glucose during labor, relationship between (Paterson, Phillips, and Wood), 938
volume during pregnancy (Lund and Donovan), 393
Breast, cancer of, in pregnancy and during lactation (Haagensen), 141 (Current developments)
engorgement, postpartum, control of, with oral contraceptives (Booker and Pahl), 1099
malignancy, detection of, thermography in (Hoffman), 681
milk of lactating women, radioactivity in, after oral administration of ^{3}H-norethynodrel (Laumas et al.), 411 (Current investigation)
Breech presentation in primigravida (Patterson, Mulliniks, and Schreier), 404
at term, prognostic index for vaginal delivery in (Zatuchni and Andros), 854

C

Cancer (*see also* carcinoma)
of breast in pregnancy and during lactation (Haagensen), 141 (Current developments)
cervical, epidemiology of, study of (Figge and Bennington), 516
linear accelerator in treatment of (McLennan, McLennan, and Bagshaw), 675
detection of preinvasive and early invasive, by 6-phosphogluconate dehydrogenase determinations (Kolstad et al.), 804
etiology and pathogenesis, role of steroid hormones in (Hertz), 1013 (Current developments)
ovarian, routine use of radiogold following operation for (Moore and Langley), 624
Candida septicemia, fetal, developing after hysterectomy and transfusion (Goldman, Eckerling, and Bassat), 885 (Comm. in brief)
Carcinogenic and noncarcinogenic substances, differential chromosomal effects of (Kaminetzky and Jagiello), 349
Carcinoma (*see also* cancer)
cervical, premenopausal women with, metabolism and production rate of estradiol-17β in (Fraser et al.), 509
of cervix, invasive, during pregnancy (Ulfelder, Smith, and Costello), 424 (Clinical problems)
gynecologic, secondary fluorescence of lipid globules exfoliated in cells from (Montanari), 581 (Comm. in brief)
multicentric squamous cell, of lower female genital tract (Hansen and Collins), 982
ovarian, management of (Burns et al.), 374
in situ, cervical, conization in treatment of, role of (Adelman and Hajdu), 173
of cervix (Devereux and Edwards), 497
of uterine corpus, Stage I, value of preoperative radiation therapy in (Nolan, Dorough, and Anson), 663
epidermoid, induction in rats of, by plastic and stainless steel intrauterine devices (Corfman and Richart), 987 (Current investigation)
Catheterization, percutaneous selective, of hypogastric artery and of its branches (Onnis et al.), 966
Caudal anesthesia, single-dose (Fernandez-Sepulveda and Gomez-Rogers), 847
Cell(s) exfoliated from gynecologic carcinomas, secondary fluorescence of lipid globules in (Montanari), 581 (Comm. in brief)
"indifferent," of tubal epithelium, role of (Pauerstein and Woodruff), 121
Central Association of Obstetricians and Gynecologists, transactions of thirty-fourth annual meeting, 297-410, 445-508
nervous system and disorders of ovulation in women (Rothchild), 719 (Current developments)

Cytology, cervical, dyskaryosis in, and relationship to trichomoniasis therapy (Hulka and Hulka), 180
Cytomegalovirus in normal pregnant women (Hildebrandt et al.), 1125
Cytophotometry, two-wavelength Feulgen, DNA content of cervical intraepithelial neoplasia studied by (Wilbanks, Richart, and Terner), 792

D

Death(s), abortion, in California (Fox), 645
fetal, human placenta 2 weeks after, light and electron microscopic observations on (Davies and Glasser), 1111
maternal associated with premature rupture of membranes (Webb), 594
Dehydroepiandrosterone, urinary, in late toxemia of pregnancy (Kotásek et al.), 229
Dehydrogenases, placental, human, electrophoretic studies of (Van Bogaert, De Peretti, and Villee), 919
Dehydrogenase, 6-phosphogluconate, determinations, detection of preinvasive and early invasive cancer by (Kolstad et al.), 804
test of vaginal fluid, technical modifications of (Sanner et al.), 800
Delivery, premature, fetal survival with, in complications of pregnancy (Dignam), 587
by vacuum extractor and forceps, comparative study (Schenker and Serr), 32
vaginal, in breech presentation, at term, prognostic index for (Zatuchni and Andros), 854
Desaminooxytocin, clinical studies on (Bieniasz, Drewniak, and Klimek), 535
Detection of breast malignancy, thermography in (Hoffman), 681
Dexamethasone suppression and chorionic gonadotropin stimulation test, evaluation of, hirsutism and (Lopez, Migeon, and Jones), 749
Diabetes mellitus, cystic fibrosis (mucoviscidosis) and, pregnancy in patient with (Plotz, Patterson, and Streit), 1105
Discharge, vaginal, ectopic ureteral orifice presenting with (Stabinsky and Tager), 582 (Comm. in brief)
Diseases of pelvis, ultrasound as diagnostic aid in (Thompson et al.), 472
Disruption of myometrial activity, spontaneous and pharmacologically induced, in early puerperium (Moawad and Hendricks), 1091
DNA content of cervical intraepithelial neoplasia, studies by two-wavelength Fuelgen cytophotometry (Wilbanks, Richart, and Terner), 792
Drug interaction (King and Burgard), 128 (Pertinent comments)
Dysgenesis, gonadal, spectrum of (Greenblatt et al.), 151
Dyskaryosis in cervical cytology and relationship to trichomoniasis therapy (Hulka and Hulka), 180

E

Ectopic ureteral orifice presenting with vaginal discharge (Stabinsky and Tager), 582 (Comm. in brief)
Electrocardiography, fetal, quantitative studies in (Larks, Webster, and Larks), 52
Electrocoagulation of pituitary of fetal lamb, failure of initiation of parturition after (Liggins, Kennedy, and Holm), 1080
Electron microscopic observations, light and, on human placenta 2 weeks after fetal death (Davies and Glasser), 1111
Electrophoretic studies of human placental dehydrogenases (Van Bogaert, De Peretti, and Villee), 919
Embolism, amniotic fluid (Anderson), 336
Endocervical epithelium, human, fine structure (Laguens et al.), 773
mucus, comparative bacteriology of (Hok, Loen, and Tjiat), 781
Endometrial histology associated with intrauterine contraceptive device (Tamada et al.), 811
Endometriosis in young women (Hanton et al.), 116
Endometrium of intrauterine contraceptive device users, histologic study of (Lee et al.), 808
Endotoxin, effect of, on placental metabolism (Czeizel et al.), 1129
Epidemiology of cervical cancer, study of (Figge and Bennington), 516
Epidermoid carcinomas, uterine, induction in rats of, by plastic and stainless steel intrauterine devices (Corfman and Richart), 987 (Current investigation)
Epithelial atypia, cervical, of pregnancy, follow-up study (Zilahi, Nemes, and Bikkal), 1154 (Comm. in brief)
Epithelium, endocervical, human, fine structure of (Laguens et al.), 773
tubal, role of "indifferent" cell of (Pauerstein and Woodruff), 121
Erythrobastosis fetalis, amniotic fluid evaluation and management of (McCutcheon and Little), 266
management of, intrauterine fetal transfusions for (Cherry and Rosenfield), 275
Esophagitis, reflux, as cause of heartburn in pregnancy (Castro), 1
Estimated and actual maturation index, comparison of (Gillespie and Gillespie), 40
Estradiol-17β, action of, at term and at onset of labor (Pinto et al.), 540
metabolism and production rate of, in premenopausal women with cervical carcinoma (Fraser et al.), 509
Estriol, urinary, in pregnancy, accurate method for determination of (Jaffe and Levitz), 992 (Current investigation)
Estrogen, exogenous HCG, and progesterone administration, changes in intact rat after (Nelson et al.), 895
and heart (Prinzmetal et al.), 579 (Current investigation)
metabolism in polycystic ovary syndrome (Barlow and Logan), 687 (Current investigation)

Estrogen—Cont'd
and progesterone, absorption of, by intrauterine devices (Taubert and Segal), 126 (Current investigation)
effects of, oxytocin sensitivity and, on metreurynter-induced abortions at midpregnancy (Nishimura and Manabe), 1087
Ethology in clinical obstetrics (Kimball), 616
Evacuation of gravid uterus by negative pressure (suction evacuation) (Peretz et al.), 18

F

Fallopian tubes, uterus and, of rhesus monkeys, long-term effects of intrauterine contraceptive device on (Kar et al.), 194
Fertilized eggs in rabbits, transport and development of, influence of staphylococcal alpha toxins on (Lesinski, Jajszczak, and Wnuk), 44
Fetal Candida septicemia developing after hysterectomy and transfusion (Goldman, Eckerling, and Bassat), 885 (Comm. in brief)
death, human placenta 2 weeks after, light and electron microscopic observations on (Davies and Glasser), 1111
electrocardiography, quantitative studies in (Larks, Webster, and Larks), 52
heart rate and acid-base status in assessment of fetal hypoxia (Wood et al.), 62
and fetal pO_2 effects on, of oxygen administration to mother (Althabe et al.), 858
hypoxia, fetal heart rate and acid-base status in assessment of (Wood et al.), 62
morbidity following potentially anoxigenic obstetric conditions. V. Organic heart disease (Niswander et al.), 871
survival with premature delivery in complications of pregnancy (Dignam), 587
weight in utero, estimation of, by simple external palpation (Insler et al.), 292 (Comm. in brief)
Fetus, human, heart rate variability in, individual differences in (Welford et al.), 56
Fibrin deposition, intervillous—Rohr, Nitabuch, and Langhans striae (Bădărău and Gavrilită), 252
perivillous, in human placenta (Fox), 245
Fibrosis, pelvic retroperitoneal, with response to prednisolone (Rust and Maas), 654
Fine structure of human endocervical epithelium (Laguens et al.), 773
Fluorescence of lipid globules in cells exfoliated from gynecologic carcinomas, secondary (Montanari), 581 (Comm. in brief)
Forceps and vacuum extractor (Editorial comment), 23
delivery by, comparative study (Schenker and Serr), 32

G

Gas chromatographic method, simplified, for large numbers of urinary pregnanediol determinations (Goldzieher et al.), 759
Genital tract, lower female, multicentric squamous cell carcinoma of (Hansen and Collins), 982
Gestational trophoblastic neoplasms, nonmetastatic, primary chemotherapy for (Hammond et al.), 71
Glucose, blood, during labor, relationship between maternal and fetal (Paterson, Phillips, and Wood), 938
metabolism, altered, in pregnancy (Graves, Neff, and Mark), 602
transfer and use of, in human placenta during in vitro perfusion and associated effects of oxytocin and papaverine (Howard and Krantz), 445
Gonadal dysgenesis, spectrum of (Greenblatt et al.), 151
Gonadotropin(s), chorionic, stimulation test, hirsutism and evaluation of dexamethasone suppression and (Lopez, Migeon, and Jones), 749
Gonadotropin—Cont'd
in urine, accuracy of passive hemagglutination inhibition method for determination (Bonsnes and Marney), 208
human chorionic, and skin homograft survival (Pearse and Kaiman), 572 (Current investigation)
human pituitary luteinizing hormone (LH) and, radioimmunoassay method for, using ^{125}I-labeled LH (Aono et al.), 996 (Current investigation)
menopausal, for anovulation and sterility (Rabau et al.), 92
-inhibiting substance, urinary, in Stein-Leventhal syndrome and other anovulatory states (Fogel and Soffer), 85

H

HCG, exogenous, estrogen, and progesterone administration, changes in intact rat after (Nelson et al.), 895
Heart disease, organic (Niswander et al.), 871
estrogens and (Prinzmetal et al.), 575 (Current investigation)
rate and acid-base status, fetal, in assessment of fetal hypoxia (Wood et al.), 62
fetal, and fetal pO_2, effects on, of oxygen administration to mother (Althabe et al.), 858
response of human fetus to induced maternal hypoxia (Copher and Huber), 320
variability in human fetus, individual differences (Welford et al.), 56
Heartburn in pregnancy, reflux esophagitis as cause of (Castro), 1
Heat-stable alkaline phosphatase as index of placental function (Messer), 459
Hemagglutination inhibition method, passive, for determination of chorionic gonadotropin in urine, accuracy of (Bonsnes and Marney), 208
Hemolytic anemia, autoimmune, of cold antibody type associated with pregnancy (Quinlivan and Goldberg), 102
disease of newborn, placenta in cases of (Wentworth), 283
Hidradenoma papilliferum, adenocarcinoma of vulva developing in, Paget's disease of vulva associated with (Weilburg, Miller, and Von Pohle), 294 (Comm. in brief)
Hirsutism and evaluation of dexamethasone suppression and chorionic gonadotropin stimulation test (Lopez, Migeon, and Jones), 749
Histochemical study of interstitial gland tissue in ovaries of nonpregnant women (Guraya et al.), 99
of steroid 3β-ol dehydrogenases of human ovaries (Taki et al.), 107
^{3}H-norethynodrel, radioactivity in breast milk of lactating women after oral administration (Laumas et al.), 411 (Current investigation)
Hormonal secretions, action of clomiphene on (Ancla and de Brux), 1043
Hormones, steroid, role of in etiology and pathogenesis of cancer (Hertz), 1013 (Pertinent comments)
Homograft survival, skin, human chorionic gonadotropin and (Pearse and Kaiman), 572 (Current investigation)
Human chorionic gonadotropin and skin homograft survival (Pearse and Kaiman), 572 (Current investigation)
menopausal gonadotropins for anovulation and sterility (Rabau et al.), 92
Hydatidiform mole with hyperthyroidism (Mann et al.), 1151 (Comm. in brief)
Hypertension, pregnancy, urine white-cell excretion and pyrogen test in (McFadyen and McCallum), 234
Hyperthyroidism, hydatidiform mole with (Mann et al.), 1151 (Comm. in brief)
Hypervolemia and elevated arterial pressure, effect of, on circulatory dynamics of pregnant animals (Douglas et al.), 889
Hypogastric artery, percutaneous selective catheterization of, and of its branches (Onnis et al.), 966

Hypoxia, fetal heart rate and acid-base status in assessment of (Wood et al.), 62
induced maternal, heart rate response of human fetus to (Copher and Huber), 320
maternal, in pregnant ewes and fetal lambs, effects of (Kirschbaum et al.), 429 (Current developments)
Hysterectomy and transfusion, fetal Candida septicemia developing after (Goldman, Eckerling, and Bassat), 885 (Comm. in brief)

I

^{125}I-labeled LH, radioimmunoassay method for human pituitary luteinizing hormone (LH) and human chorionic gonadotropin (HCG) using (Aono et al.), 996 (Current investigation)
Illegitimate pregnancy deaths, criminal abortion deaths, and suicides in pregnancy (Barno), 356
Immunologic pregnancy testing, daily, of initially nonpregnant women (Morris and Udry), 1148
Index of placental function, heat-stable alkaline phosphatase as (Messer), 459
"Indifferent" cell of tubal epithelium role of (Pauerstein and Woodruff), 121
Induced disruption of myometrial activity, spontaneous and pharmacologically, in early puerperium (Moawad and Hendricks), 1091
Infertility, anovulatory, Clomid therapy for (Kase, Mroueh, and Olson), 1037
Interaction, drug (King and Burgard), 128 (Pertinent comments)
International Symposium on Pharmacology of Hormonal Peptides, 444 (Items)
Interstitial gland tissue in ovaries of nonpregnant women, histochemical study of (Guraya), 99
Intervillous fibrin deposition—Rohr, Nitabuch, and Langhans striae (Bădărău and Gavrilită), 252
space amniotic fluid and maternal arterial blood pressures, relationships between (Schwarcz et al.), 924
human, arterial blood flow into (Burchell), 303
Intraepithelial neoplasia, cervical, DNA content of, studied by two-wavelength Feulgen cytophotometry (Wilbanks, Richart, and Terner), 792
Intrauterine contraception, combined histologic and cytologic study of (Sammour, Iskander, and Rifai), 946
contraceptive device, endometrial histology associated with (Tamada et al.), 811
long-term effect of, on uterus and Fallopian tubes of rhesus monkeys (Kar et al.), 194
users, histologic study of endometrium of (Lee et al.), 808
uterine perforation with (Burnhill and Birnberg), 135 (Pertinent comments)
devices, absorption of estrogen and progesterone by (Taubert and Segal), 126 (Current investigation)
plastic and stainless steel, induction in rats of uterine epidermoid carcinomas by (Corfman and Richart), 987 (Current investigation)
fetal transfusion for management of erythroblastosis (Cherry and Rosenfield), 275
Iron, placental transfer of (McLaurin and Cotter), 931
Isoimmunization, RH (Sullivan, Peckham, and Jennings), 877
Items, 150, 296, 444, 748, 1020

L

Labor, accelerated painless (Louros, Papadimitriou, and Papapostolou), 555
estradiol-17β at term and at onset of, action of (Pinto et al.), 540
maternal and fetal blood glucose during relationship between (Paterson, Phillips, and Wood), 938
pattern in multiparas, prognostic significance of (Friedman and Sachtleben), 466
Lactate production, placental, in toxemia of pregnancy (Ginsburg and Jeacock), 239
Lactating women, radioactivity in breast milk of, after oral administration of ^{3}H-norethynodrel (Laumas et al.), 411 (Current investigation)
Lactation, cancer of breast in pregnancy and during (Haagensen), 141 (Current development)
Lichen sclerosus et atrophicus of vulva, P^{32} uptake in (Kaufman, Gardner, and Johnson), 312
Linear accelerator in treatment of cervical cancer (McLennan, McLennan, and Bagshaw), 675
Lipid globules in cells exfoliated from gynecologic carcinomas, secondary fluorescence of (Montanari), 581 (Comm. in brief)
Lippes loop, effect of on human myometrial activity (Bengtsson and Moawad), 957
Lunar periodicity with reference to live births (Menaker), 1002 (Pertinent comments)
Luteinizing hormone (LH), human pituitary, and human chorionic gonadotropin (HCG), radioimmunoassay method for, using ^{125}I-labeled LH (Aono et al.), 996 (Current investigation)

M

Malignancy, breast, thermography, detection of (Hoffman), 681
Manual exploration of uterus, routine postpartum (Schaupp), 631
Maternal death associated with premature rupture of membranes (Webb), 594
Maturation index, estimated and actual, comparison of (Gillespie and Gillespie), 40
Meconium, amniotic fluid and, infusion of, into monkeys, failure to produce syndrome of amniotic fluid embolism by (Stolte et al.), 694 (Current investigation)
Meeting, annual, American Geriatric Society, 150 (Items)
of National Association of Iranian Gynecologists and Obstetricians, 150 (Items)
Membranes, amnion and chorion, human, permeability of (Barton and Baker), 562
artificial rupture of, and uterine activity (Gaafer, El-Sahwi, and Toppozada), 913
premature rupture of, maternal death associated with (Webb), 594
Menopausal gonadotropins, human, for anovulation and sterility (Rabau et al.), 92
Menstrual cycle, normal (Moawad and Bengtsson), 1057
Metabolism, estrogen, in polycystic ovary syndrome (Barlow and Logan), 687 (Current investigation)
glucose, altered, in pregnancy (Graves, Neff, and Mark), 602
of human cervical tissues (Kury, Rev-Kury, and Friedell), 767
placental, effect of endotoxin on (Czeizel et al.), 1129
and production rate of estradiol-17β in premenopausal women with cervical carcinoma (Fraser et al.), 509
Methotrexate, use of, in treatment of trophoblastic diseases, especially choriocarcinoma (Wei and Ouyang), 79
Metreurynter-induced abortions at midpregnancy, oxytocin sensitivity and effects of estrogen and progesterone on (Nishimura and Manabe), 1087
Metronidazole, resistance of Trichomonas vaginalis to (Diddle), 583 (Comm. in brief)
Midpregnancy, metreurynter-induced abortions at, oxytocin sensitivity and effects of estrogen and progesterone on (Nishimura and Manabe), 1087
Mortality, perinatal, parental smoking and (Comstock and Lundin), 708 (Pertinent comments)
Motility patterns of nonpregnant human uterus, in vivo studies of (Moawad and Bengtsson), 1057
Mucinous adenocarcinoma of urachus in women (Howell and Diddle), 585 (Comm. in brief)
(Mucoviscidosis) cystic fibrosis, and diabetes mellitus, pregnancy in patient with (Plotz, Patterson, and Streit), 1105

Mucus, endocervical, comparative bacteriology of (Hok, Loen, and Tjiat), 781
Multiparas, labor pattern in, prognostic significance of (Friedman and Sachtleben), 466
Myometrial activity in early puerperium, spontaneous and pharmacologically induced disruption of (Moawad and Hendricks), 1091
human, effect of Lippes loop on (Bengtsson and Moawad), 957
Myometrium, human, mechanism of action of progesterone on (Wagatsuma, Sullivan, and Kumar), 1050
in vitro progesterone effects on potassium flux in (Wagatsuma, Sullivan, and Kumar), 1050
plasminogen activator content of, in nonpregnant, pregnant, and parturient women (Uszyński and Uszyńska-Folejewska), 825
in uterine body and lower segment, effect of progesterone on oxytocin-induced contraction of three separate layers of human gestational (Pinto, Lerner, and Pontelli), 547

N

Negative pressure (suction evacuation), evacuation of gravid uterus by (Peretz et al.), 18
Neoplasia, cervical intraepithelial, DNA content of, studied by two-wavelength Feulgen cytophotometry (Wilbanks, Richart, and Terner), 792
Neoplasms, trophoblastic, nonmetastatic gestational, primary chemotherapy for (Hammond et al.), 71
Nervous system, central, and disorders of ovulation in women (Rothchild), 719 (Current developments)
Newborn, hemolytic disease of, placenta in cases of (Wentworth), 283
Nonmetastatic gestational trophoblastic neoplasms, primary chemotherapy for (Hammond et al.), 71
Nurse-midwife as mediator of contraception (Beasley), 201
Nurse-Midwifery, American College of, annual convention, 296 (Items)

O

Obstetrics, analgesia in (Filler, Hall, and Filler), 832
clinical, ethology in (Kimball), 616
O'Connor-O'Sullivan retractor, modified, for pelvic surgery (Hammond), 886 (Comm. in brief)
Oligospermia, effect of clomiphene citrate on (Mroueh, Lytton, and Kase), 1033
Oral contraceptives, control of postpartum breast engorgement with (Booker and Pahl), 1099
patient acceptance of, —private patient (Wallach, Watson, and Garcia), 1071
syndrome of anovulation following use of (Dodek and Kotz), 1065
therapy, transaminase activity during, 2 hour sulfobromophthalein retention test and (Larsson-Cohn), 188
Organic heart disease (Niswander et al,) 871
Osmotic gradients, water transfer across human amnion in response to (Seeds), 568
Ovarian cancer, routine use of radiogold following operation for (Moore and Langley), 624
carcinoma, management of (Burns et al.), 374
Ovaries, human, histochemical studies of steroid 3β-ol dehydrogenases of (Taki et al.), 107
of nonpregnant women, histochemical study of interstitial gland tissue in (Guraya), 99
Ovary, polycystic, syndrome, estrogen metabolism in (Barlow and Logan), 687 (Current investigation)
Schistosoma mansoni of (Bahary, Ovadia, and Neri), 290 (Comm. in brief)
Ovulation, disorders of, in women, central nervous system and (Rothchild), 719 (Current developments)
Oxygen administration to mother, effects on fetal heart rate and fetal pO_2 of (Althabe et al.), 858
transfer, placental, dynamics of (Kirschbaum et al.), 429 (Current developments)
Oxytocin, antibody to (Gusdon), 526
-induced contraction of three separate layers of human gestational myometrium in uterine body and lower segment, effect of progesterone on (Pinto, Lerner, and Pontelli), 547
and papaverine, transfer and use of glucose in human placenta during in vitro perfusion and associated effects of (Howard and Krantz), 445
sensitivity and effects of estrogen and progesterone on metreurynter-induced abortions at midpregnancy (Nishimura and Manabe), 1087

P

P^{32} uptake in lichen sclerosus et atrophicus of vulva (Kaufman, Gardner, and Johnson), 312
Pacific Coast Obstetrical and Gynecological Society, transactions of thirty-third annual meeting, 587-686
Paget's disease of vulva associated with adenocarcinoma developing in hidradenoma papilliferum (Weilburg, Miller, and Von Pohle), 294 (Comm. in brief)
Painless labor, accelerated (Louros, Papadimitriou, and Papapostolou), 555
Papanicolaou smear, suspicious, during pregnancy, impact of (Rogers and Williams), 488
Papaverine, oxytocin and, transfer and use of glucose in human placenta during in vitro perfusion and associated effects of (Howard and Krantz), 445
Parturition, failure of initiation of, after coagulation of pituitary of fetal lamb (Liggins, Kennedy, and Holm), 1080
Patency, tubal, examination for, method for easy combination of several methods of (Konno), 976
Pelvic abscess, aggressive management of (Kaplan, Jacobs, and Ehresman), 482
retroperitoneal fibrosis with response to prednisolone (Rust and Maas), 654
surgery, modified O'Connor-O'Sullivan retractor for (Hammond), 886 (Comm. in brief)
Pelvis, diseases of, ultrasound as diagnostic aid in (Thompson et al.), 472
Percutaneous selective catheterization of hypogastric artery and of its branches (Onnis et al.), 966

Plasminogen activator content of myometrium in nonpregnant, pregnant, and parturient women (Uszyński and Uszyńska-Folejewska), 825
Pneumothorax, bilateral spontaneous, in newborn (Ravin and Landesman), 1152 (Comm. in brief)
pO_2, fetal, effects on fetal heart rate and, of oxygen administration to mother (Althabe et al.), 858
Polycystic ovary syndrome, estrogen metabolism in (Barlow and Logan), 687 (Current investigation)
Postpartum breast engorgement, control of, with oral contraceptives (Booker and Pahl), 1099
manual exploration of uterus, routine (Schaupp), 631
Potassium flux in human myometrium, in vitro progesterone effects on (Wagatsuma, Sullivan, and Kumar), 1050
Prednisolone, pelvic retroperitoneal fibrosis with response to (Rust and Maas), 654
Pregnancy, altered glucose metabolism in (Graves, Neff, and Mark), 602
autoimmune hemolytic anemia of cold antibody type associated with (Quinlivan and Goldberg), 1102
blood volume during (Lund and Donovan), 393
cancer of breast in, and during lactation (Haagensen), 141 (Current developments)
cervical epithelial atypia of, follow-up study (Zilahi, Nemes, and Bikkal), 1154
complications of, fetal survival with premature delivery in (Dignam), 587
deaths, illegitimate, criminal abortion deaths, and suicides in pregnancy (Barno), 356
effect of, on thymolymphatic system (Nelson et al.), 895
heartburn in, reflux esophagitis as cause (Castro), 1
hypertension, urine white-cell excretion and pyrogen test in (McFadyen and McCallum), 234
invasive carcinoma of cervix during (Ulfelder, Smith, and Costello), 424 (Clinical problems)
in patient with cystic fibrosis (mucoviscidosis) and diabetes mellitus (Plotz, Patterson, and Streit), 1105
pyelonephritis in, treatment of (Hibbard et al.), 609
suicides in, criminal abortion deaths, illegitimate pregnancy deaths, and (Barno), 356
suspicious Papanicolaou smear during, impact of (Rogers and Williams), 488
testing, immunologic, daily, of initially nonpregnant women (Morris and Udry), 1148 (Comm. in brief)
therapeutic termination of, current trends in (Rovinsky and Ginsberg), 11
toxemia of, late, urinary dehydroepiandrosterone in (Kotásek et al.), 229
placental lactate production in (Ginsburg and Jeacock), 239
triiodothyronine in (Abbott, Kantor, and Rember), 818
urinary estriol in, accurate method for determination of (Jaffe and Levitz), 992 (Current investigation)
Pregnanediol determinations, urinary, simplified gas chromatographic method for large numbers of (Goldzieher et al.), 759
Premature delivery, fetal survival with, in complications of pregnancy (Dignam), 587
rupture of membranes, maternal death associated with (Webb), 594
Premenopausal women with cervical carcinoma, metabolism and production rate of estradiol-17β in (Fraser et al.), 509
Prenatal prediction of condition of infant at birth (Apgar rating) (Larks, Webster, and Larks), 52
transfusion, amnioscopy for (Mandelbaum, Pontarelli, and Brushenko), 1140
Preoperative radiation therapy, value of, in Stage I carcinoma of uterine corpus (Nolan, Dorough, and Anson), 663
Preparation for childbirth, psychosomatic methods for (Chertok), 698 (Pertinent comments)
Presentation, breech, in primigravida (Patterson, Mulliniks, and Schreier), 404
at term, prognostic index for vaginal delivery in (Zatuchni and Andros), 854
Pressure, elevated arterial, effect of hypovolemia and, on circulatory dynamics of pregnant animals (Douglas et al.), 889
Primigravida, breech presentation in (Patterson, Mulliniks, and Schreier), 404
Production rate of estradiol-17β, metabolism and, in premenopausal women with cervical carcinoma (Fraser et al.), 509
Progesterone administration, exogenous HCG, estrogen, and changes in intact rat after (Nelson et al.), 895
effect of, on oxytocin-induced contraction of three separate layers of human gestational myometrium in uterine body and lower segment (Pinto, Lerner, and Pontelli), 547
in vitro, on potassium flux in human myometrium (Wagatsuma, Sullivan, and Kumar), 1050
estrogen and, absorption of, by intrauterine devices (Taubert and Segal), 126 (Current investigation)
effects of, oxytocin sensitivity and, on metreurynter-induced abortions at midpregnancy (Nishimura and Manabe), 1087
mechanism of action of, on human myometrium (Wagatsuma, Sullivan, and Kumar), 1050
Prognostic index for vaginal delivery in breech presentation at term (Zatuchni and Andros), 854
Protein concentrations, amino nitrogen and, in rabbit blastocyst fluid, relationship between (Lesinski, Jajszczak, and Choroszewska), 48
Psychiatric implications of therapeutic abortion (Kretzschmar and Norris), 368
Psychosomatic methods of preparation for childbirth (Chertok), 698
Puerperium, early, spontaneous and pharmacologically induced disruption of myometrial activity in (Moawad and Hendricks), 1091
Pulse, comparison of uterine, upper vaginal, lower vaginal, and digital (Bercovici and Palti), 414 (Current investigation)
Pyelonephritis in pregnancy, treatment of (Hibbard et al.), 609
Pyrogen test, urine white-cell excretion and, in pregnancy hypertension (McFadyen and McCallum), 234

R

Radiation therapy, preoperative, value of, in Stage I carcinoma of uterine corpus (Nolan, Dorough, and Anson), 663
Radioactivity in breast milk of lactating women after oral administration of ^{3}H-norethynodrel (Laumas et al.), 411 (Current investigation)
Radiogold, routine use of, following operation for ovarian cancer (Moore and Langley), 624
Radioimmunoassay method for human pituitary luteinizing hormone (LH) and human chorionic gonadotropin (HCG) using ^{125}I-labeled LH (Aono et al.), 996 (Current investigation)
Response, heart rate, of human fetus to induced maternal hypoxia (Copher and Huber), 320

Retractor, modified O'Connor-O'Sullivan, for pelvic surgery (Hammond), 886 (Comm. in brief)
Retroperitoneal fibrosis, pelvic, with response to prednisolone (Rust and Maas), 654
Rh isoimmunization (Sullivan, Peckham, and Jennings), 877
Road ahead (Keettel), 297 (Presidential address)
Rupture of membranes, artificial, and uterine activity (Gaafar, El-Sahwi, and Toppozada), 913
premature, maternal death associated with (Webb), 594

S

Saf-T-Coil, preliminary experience with (Seymour), 1150 (Comm. in brief)
Schistosoma mansoni of ovary (Bahary, Ovadia, and Neri), 290 (Comm. in brief)
Schistosomiasis of uterine cervix due to S. haematobium, pathology of (Williams), 784
Secretions, hormonal, action of clomiphene on (Ancla and de Brux), 1043
Septicemia, fetal Candida, developing after hysterectomy and transfusion (Goldman, Eckerling, and Bassat), 885 (Comm. in brief)
S. haematobium, pathology of schistosomiasis of uterine cervix due to (Williams), 784
Single-dose caudal anesthesia (Fernandez-Sepulveda and Gomez-Rogers), 847
Skin homograft survival, human chorionic gonadotropin and (Pearse and Kaiman), 572 (Current investigation)
Smear, Papanicolaou, suspicious, during pregnancy, impact of (Rogers and Williams), 488
Smoking, parental, and perinatal mortality (Comstock and Lundin), 708 (Pertinent comments)
Southeastern Regional Center for Trophoblastic Neoplasms, 150 (Items)
Spontaneous pneumothorax, bilateral, in newborn (Ravin and Landesman), 1152 (Comm. in brief)
Squamous cell carcinomas, multicentric, of lower genital tract (Hansen and Collins), 982
Stage I carcinoma of uterine corpus, value of preoperative radiation therapy in (Nolan, Dorough, and Anson), 663
Staphylococcal alpha toxins, influence of, on transport and development of fertilized eggs in rabbits (Lesinski, Jajszczak, and Wnuk), 44
Stein-Leventhal syndrome and other anovulatory states, urinary gonadotropin-inhibiting substance in (Fogel and Soffer), 85
Sterility, anovulation and, human menopausal gonadotropins for (Rabau et al.), 92
Steroid hormones, role of, in etiology and pathogenesis of cancer (Hertz), 1013 (Current developments)
3β-ol dehydrogenases of human ovaries, histochemical studies of (Taki et al.), 107
Striae, Rohr, Nitabuch, and Langhans—intervillous fibrin deposition (Bădărău and Gavrilită), 252
Suicides in pregnancy, criminal abortion deaths, illegitimate pregnancy deaths, and (Barno), 356
Sulfobromophthalein retention test, 2 hour, and transaminase activity during oral contraceptive therapy (Larsson-Cohn), 188
Surgery, pelvic, modified O'Connor-O'Sullivan retractor for (Hammond), 886 (Comm. in brief)
Surgical training, basic, of gynecologist-obstetrician (Stevenson and Hodgkinson), 387
Syndrome of amniotic fluid embolism, failure to produce, by infusion of amniotic fluid and meconium into monkeys (Stolte et al.), 694 (Current investigation)
of anovulation following use of contraceptives (Dodek and Kotz), 1065
Stein-Leventhal, and other anovulatory states, urinary gonadotropin-inhibiting substance in (Fogel and Soffer), 85

T

Termination of pregnancy, therapeutic, current trends in (Rovinsky and Gusberg), 11
Therapeutic abortion, psychiatric implications of (Kretzschmar and Norris), 368
Thermography in detection of breast malignancy (Hoffman), 681
Thymolymphatic system, effect of pregnancy on (Nelson et al), 895
Tissue culture study of abnormal trophoblast (Wei and Chiang), 1144 (Current investigation)
human cervical, metabolism of (Kury, Rev-Kury, and Friedell), 767
Toxemia of pregnancy, late, urinary dehydroepiandrosterone in (Kotásek et al.), 229
placental lactate production in (Ginsburg and Jeacock), 239
Toxins, staphylococcal alpha, influence of, on transport and development of fertilized eggs in rabbits (Lesinski, Jajszczak, and Wnuk), 44
Training, basic surgical, of gynecologist-obstetrician (Stevenson and Hodgkinson), 387
program in community obstetrics and gynecology, 296 (Items)
Transactions of thirty-fourth annual meeting of Central Association of Obstetricians and Gynecologists, 297-410, 445-508
thirty-third annual meeting of Pacific Coast Obstetrical and Gynecological Society, 587-686
Transaminase activity during oral contraceptive therapy, 2 hour sulfobromophthalein retention test and (Larsson-Cohn), 188
Transfer, placental, of iron (McLaurin and Cotter), 931
water, across human amnion in response to osmotic gradients (Seeds), 568
Transfusion, hysterectomy and, fetal Candida septicemia developing after (Goldman, Eckerling, and Bassat), 885 (Comm. in brief)
intrauterine fetal, for management of erythroblastosis (Cherry and Rosenfield), 275
prenatal, amnioscopy for (Mandelbaum, Pontarelli, and Brushenko), 1140
Trichomonas vaginalis: Resistance to metronidazole (Diddle), 583 (Comm. in brief)
Trichomoniasis therapy, dyskaryosis in cervical cytology and relationship to (Hulka and Hulka), 180
Triiodothyronine in pregnancy (Abbott, Kantor, and Rember), 818
Trophoblastic diseases, especially choriocarcinoma, methotrexate in treatment of, use of (Wei and Ouyang), 79
neoplasms, nonmetastatic gestational, primary chemotherapy for (Hammond et al.), 71
Tubal epithelium, "indifferent" cell of, role of (Pauerstein and Woodruff), 121
patency, examination for, method for easy combination of several methods of (Konno), 976
Twin births, incidence of, among Chinese in Taiwan (Wei and Lin), 881

U

Ultrasound diagnostic aid in diseases of pelvis (Thompson et al.), 472
Umbilical cord, human, arterial and venous pressures in (Malpas and Symonds), 261
Uptake, P^{32}, in lichen sclerosus et atrophicus of vulva (Kaufman, Gardner, and Johnson), 312
Urachus, mucinous adenocarcinoma of, in women (Howell and Diddle), 585 (Comm. in brief)
Ureteral orifice, ectopic, presenting with vaginal discharge (Stabinsky and Tager), 582 (Comm. in brief)
Urinary bladder and uterine activity (Toppozada, Gaafer, and El-Sahwi), 904

dehydroepiandrosterone in late toxemia of pregnancy (Kotásek et al.), 229
estriol in pregnancy, accurate method for determination of (Jaffe and Levitz), 992 (Current investigation)
gonadotropin-inhibiting substance in Stein-Leventhal syndrome and other anovulatory states (Fogel and Soffer), 85
pregnanediol determinations, simplified gas chromatographic method for large numbers of (Goldzieher et al.), 759
Urine, chorionic gonadotropin in, accuracy of passive hemagglutination inhibition method for determination (Bonsnes and Marney), 208
white-cell excretion and pyrogen test in pregnancy hypertension (McFadyen and McCallum), 234
Uterine activity, artificial rupture of membranes and (Gaafar, El-Sahwi, and Toppozada), 913
new unit for evaluation of (El-Sahwi, Gaafar, and Toppozada), 900
urinary bladder and (Toppozada, Gaafar, and El-Sahwi), 904
body and lower segment, effect of progesterone on oxytocin-induced contraction of three separate layers of human gestational myometrium in (Pinto, Lerner, and Pontelli), 547
cervix, pathology of schistosomiasis of, due to S. haematobium (Williams), 784
contractility induced by artificial cervical dilatation, effect of atropine on (Schwarcz et al.), 577 (Current investigation)
corpus, Stage I carcinoma of, value of preoperative radiation therapy in (Nolan, Dorough, and Anson), 663
epidermoid carcinomas, induction in rats of, by plastic and stainless steel intrauterine devices (Corfman and Richart), 987 (Current investigation)
perforation with intrauterine devices (Burchell and Birnberg), 135 (Pertinent comments)
Uterus and Fallopian tubes of rhesus monkeys, long-term effect of intrauterine contraceptive device on (Kar et al.), 194
gravid, evacuation of, by negative pressure (suction evacuation) (Peretz et al.), 18
nonpregnant human, in vivo studies of motility patterns of (Moawad and Bengtsson), 1057
routine postpartum manual exploration of (Schaupp), 631

V

Vacuum extraction (Orcutt), 638
extractor, evaluation of, in series of 201 cases (Wider, Erez, and Steer), 24
forceps and (Editorial comment), 23
delivery by, comparative study (Schenker and Serr), 32
Vaginal delivery in breech presentation at term, prognostic index for (Zatuchni and Andros), 854
discharge, ectopic ureteral orifice presenting with (Stabinsky and Tager), 582 (Comm. in brief)
fluid, 6-phosphogluconate dehydrogenase test of, technical modifications of (Sanner et al.), 800
Venous pressures, arterial and, in human umbilical cord (Malpas and Symonds), 261
Volume, blood, during pregnancy (Lund and Donovan), 393
Vulva, lichen sclerosus et atrophicus of, P^{32} uptake in (Kaufman, Gardner, and Johnson), 312
Paget's disease of, associated with adenocarcinoma developing in hidradenoma papilliferum (Weilburg, Miller, and Von Pohle), 294 (Comm. in brief)

W

Water transfer across human amnion in response to osmotic gradients (Seeds), 568
Weight, fetal, estimation of, in utero by simple external palpation (Insler et al.), 292 (Comm. in brief)
White-cell excretion, urine, and pyrogen test in pregnancy hypertension (McFadyen and McCallum), 234

Amino acids, free, concentration of, in rabbit blastocyst fluid (Lesinski et al.), 280
in cow and calf plasma in prolonged gestation, preliminary observations (Foley et al.), 1106
α-Aminoisobutyric acid in placental slices at term, uptake of (Litonjua et al.) 242
Amniocentesis and intrauterine transfusion, fetal ascites complicating (Killam, Grillo, and Summerson), 292 (Comm. in brief)
transabdominal, hazards of fetal-maternal transfusion after (Cassady et al.), 284
Amnion, ruptured, morphologic studies of (Wynn, Sever, and Hellman), 359
Amniotic membrane and adjacent tissue in term placenta (Verbeck, Robertson, and Haust), 1136
Anaerobic bacteria in female urinary tract, observations on (Slotnick and Mackey), 413
Analgesia, meperidine, and premature labor (Kaltreider), 909
Anatomical types of ovarian adenofibroma, varied (Wolfe and Seckinger), 121
Anencephalic male with XX sex chromosome complement (Arias-Bernal and Jones), 877 (Comm. in brief)
Anesthesia, pentobarbital, in labor (Seear), 952
Pentothal, nitrous oxide, and succinylcholine, at cesarean section, observations on (Stenger et al.), 690
Angiotensin blood levels in normal and toxemic pregnancies (Massani et al.), 313
Antibodies, atypical, routine prenatal screening for (Allen, Dubner, and Mockler), 274
Antigens, histocompatibility, of aging mouse trophoblast (Simmons and Ozerkis), 271
Rh, in 38-day-old fetus, demonstration of (Bergström et al.), 130 (Current investigation)
Arrhenoblastoma in 13-year-old girl (Hill), 910
Arrhythmia, fetal, data on significance of (Komáromy et al.), 86
Arterial and uterine venous blood, maternal, respiratory gases in (Cotter, Blechner, and Prystowsky), 1
Ascites, fetal, complicating amniocentesis and intrauterine transfusion (Killam, Grillo, and Summerson), 292 (Comm. in brief)
Aspiration method, vacuum, for interruption of early pregnancy (Vladov), 202
Asymptomatic bacteriuria during pregnancy, untreated, postpartum renal status of women with (Cobbs et al.), 221
screening during antepartum care (Merrill et al.), 216
Atypical antibodies, routine prenatal screening for (Allen, Dubner, and Mockler), 274

B

Bacilli, tubercule, isolation of, from endocervical mucus of infertile women (Hok et al.), 397
Back and hip pain in pregnancy due to chordoma (Creasman), 1165 (Comm. in brief)
Bacteremic shock, homeostatic role of renal-adrenal axis in (Vaughn et al.), 208
Bacteria, anaerobic, in female urinary tract, observations on (Slotnick and Mackey), 413
Bacteriuria, asymptomatic, screening for, during antepartum care (Merrill et al.), 216
untreated asymptomatic, during pregnancy, postpartum renal status of women with (Cobbs et al.), 221
Balance studies, metabolic, with norethynodrel and chlormadinone acetate (Lecocq, Bradley, and Goldzieher), 374
Basement membranes (amniotic, trophoblastic, capillary) and adjacent tissues in term placenta (Verbeck, Robertson, and Haust), 1136
Benign trophoblastic tumors, management of (Llewellyn-Jones), 589
Bilateral ovarian fibromas in 5-year-old (Bower and Erickson), 880 (Comm. in brief)

*September 1, 1-154; September 15, 155-294; October 1, 295-458; October 15, 459-598; November 1, 599-744; November 15, 745-884; December 1, 885-1046; December 15, 1047-1184.

Biologic behavior of dysplasia and carcinoma in situ (Fox), 960
Biopsy, cervical, and cervical conization, diagnostic accuracy of (Anderson and Linton), 113
Birth control, rhythm method of, perfect, possibility of, by periodic light stimulation (Dewan), 1016
Blocking and oxytocic effects of water-soluble estrogens, in vitro, on human, mouse, and rat uteri (Mossman and Conrad), 539
Blood calcium responses, fetal, to maternal calcium infusion in sheep (Bawden and Wolkoff), 55
maternal arterial and uterine venous, respiratory gases in (Cotter, Blechner, and Prystowsky), 1
Brain damage, hypertrichosis, and polycystic ovaries (Bartuska et al.), 387
Breech delivery, premature (Galloway et al.), 975
Brenner's tumor, hyperplasia of endometrium and, in postmenopausal woman (Gupta and Levine), 290 (Comm. in brief)

C

Calcium, fetal blood, responses to maternal calcium infusion in sheep (Bawden and Wolkoff), 55
infusion, maternal, in sheep, fetal blood calcium responses to (Bawden and Wolkoff), 55
Calculi, urinary, in pregnancy, incidence and significance (Harris and Dunnihoo), 237
Calf and cow plasma, free amino acids in, in prolonged gestation, preliminary observations (Foley et al.), 1106
Cancer (*see also* carcinoma)
cervical, radical hysterectomy and pelvic lymphadenectomy with and without preoperative radiotherapy for (Parker et al.), 933
vesical, ureteral, and rectal fistulas following operation for (Ingiulla and Cosmi), 1078
surgery, combined inguinal, perineal, and abdominal, positioning and some variations in surgical technique used for (Spratt, Donegan, and Rapp), 417
Capillary membrane and adjacent tissue in term placenta (Verbeek, Robertson, and Haust), 1136
Carbohydrate metabolism, menstrual cycle (Spellacy, Carlson, and Schade), 382
Carbonic anhydrase concentration in endometrium after oral progestins (Nicholls and Board), 829
Carcinoma (*see also* cancer)
of cervix, advanced, pelvic exenteration for (Ingiulla and Cosmi), 1083
detection and management, use of hematoporphyrin derivative in (Gray et al.), 766
in pre-teen-age female (Rowley and Barnes), 878 (Comm. in brief)
uterine, 4, stem-line karyotypes of (Atkin, Baker, and Wilson), 506
endometrial, arising in ovarian endometrioma (Blanchard), 908
postmenopausal ovaries of patients with and without, enzyme activities related to steroidogenesis in (Plotz et al.), 182
in situ and dysplasia, biologic behavior of (Fox), 960
multifocal, of female genitals (Ostergard and Morton), 1006
ovarian, disseminated, long-term survival in (Elahi et al.), 522
Cavity, uterine, cryosurgery of (Cahan and Brockunier), 138 (Current developments)
sterility of (Ansbacher, Boyson, and Morris), 394
Cell, endometrial glandular, human, ultrastructure of, during menstrual cycle (Cavazos et al.), 833
luteal, at term (Green, Garcilazo, and Maqueo), 855
Cervical biopsy and cervical conization, diagnostic accuracy of (Anderson and Linton), 113
cancer, detection and management, use of hematoporphyrin derivative in (Gray et al.), 766
radical hysterectomy and pelvic lymphadenectomy with and without preoperative radiotherapy for (Parker et al.), 933
conization, cervical biopsy and, diagnostic accuracy of (Anderson and Linton), 113
pregnancy (Price and Webster), 134 (Clinical problems)
temperature and induction of labor (Gardiner), 551
Cervix, carcinoma of, advanced, pelvic exenteration for (Ingiulla and Cosmi), 1083
in pre-teen-age female (Rowley and Barnes), 878 (Comm. in brief)
vesical, ureteral, and rectal fistulas following operation for (Ingiulla and Cosmi), 1078
Cervix and uterus, human, histologic and chemical studies of smooth muscle in (Rorie and Newton), 466
uteri, carcinomas of, 4, stem-line karyotypes of (Atkin, Baker, and Wilson), 506
mouse, mechanism of induced epidermization in (Graham), 470
neoplasia of, radioautographic studies in (Iliya and Azar), 515
Cesarean section, Pentothal, nitrous oxide, and succinylcholine anesthesia at, observations on (Stenger et al.), 690
Chlormadinone acetate, norethynodrel and, metabolic balance studies with (Lecocq, Bradley, and Goldzieher), 374
Chordoma, back and hip pain in pregnancy due to (Creasman), 1165 (Comm. in brief)
Chorioadenoma destruens (invasive hydatidiform mole), ultrastructure of trophoblast and endometrium in (Wynn and Harris), 1125
Choriocarcinoma, human, transplanted into hamster liver, electron microscopy of (Larsen, Ehrmann, and Bierring), 1109
Chromatin from normal and neoplastic tissues, template capacity of (Warren and Barker), 198
Chromatographic, gas, estimation of urinary estriol in pregnancy (Scommegna and Chattoraj), 1087
Chromatography, gas-liquid, measurement of estriol in plasma by (Ratanasopa et al.), 295
thin-layer, of placental phospholipids (Nelson, Kenimer, and Jones), 262
Chromosome aberrations in XO/XY mosaic individuals and their fathers (Starkman and Jaffe), 1056
mosaicism, generalized XY/XX/XXY in male hermaphrodite (Klay, Sparkes, and Lagasse), 495
XX sex, complement, anencephalic male with (Arias-Bernal and Jones), 877 (Comm. in brief)
Clinical problems, 134-137, 1020-1023
use of ultrasound in obstetrics and gynecology (Taylor et al.), 671
and virologic study of patients seen at Yale–New Haven Women's Clinic (1963-1964) (Wade, Saturno, and Hsiung), 595 (Comm. in brief)
Clomiphene citrate for improvement of ovarian function (Jones and Moraes-Ruehsen), 814
treatment, changes in hormonal excretion under (Bret and Coiffard), 91
Clotting factors, effect of estrogen-progestin combinations on (Robinson), 163
Communications in brief, 289-293, 595-598, 877-884, 1064-1066
Conference on prematurity, first international, 146 (Items)
Conization, cervical, cervical biopsy and, diagnostic accuracy (Anderson and Linton), 113
Contraceptive device, intrauterine, new (Knoch), 428
reappraisal of (Hall), 808

Coronary atherosclerosis, excessive, time interval from castration in premenopausal women to development of (Parrish et al.), 155
Cow and calf plasma, free amino acids in, in prolonged gestation: preliminary observations (Foley et al.), 1106
Cryosurgery of uterine cavity (Cahan and Brockunier) 138 (Current developments)
Current developments, 138-153, 434-457, 732-741, 1024-1045
investigation, 130-133, 722-727, 1160-1163
Cycle, menstrual, carbohydrate metabolism (Spellacy, Carlson, and Schade), 382
Cyclic norethindrone-mestranol therapy, ovarian morphology following (Zussman, Forbes, and Carpenter), 99
therapy with estrogen-progestin combinations, effect of, on thyroid function (Margulis and Leach), 168
Cytogenetic service, functional anatomy of (Valenti and Vethamany), 434 (Current developments)
Cytology, urinary, in reproductive endocrinology (O'Morchoe and O'Morchoe), 479
vaginal, for prediction of onset of labor (Jing, Kaufman, and Franklin), 546
Cystadenofibroma of ovary (Herrmann), 117
Cystometry, electronic, for differentiating between types of urinary incontinence (Canton), 401
Cysts, septal, of human placenta, "X-cells" in electron microscopic study of (Ruffolo et al.), 1147

D

Defects, genetic, intrauterine diagnosis and management of (Jacobson and Barter), 796
Delivery, breech, premature (Galloway et al.), 975
mode of, effect of, on immunoglobulin G concentration in newborn (Jones and Payne), 1160 (Current investigation)
Diabetes, gestational, morphologic aspects of placenta in, seen by phase-contrast microscopy (Aladjem), 341
Disseminated ovarian carcinoma, long-term survival in (Elahi et al.), 522
Drug addiction in pregnant women (Perlmutter), 569
Dysgenesis, gonadal, pure, and male pseudohermaphroditism in sisters (Barr et al.), 1047
Dysplasia and carcinoma in situ, biologic behavior of (Fox), 960

E

Eclampsia, clinical and laboratory observations on (Pritchard and Stone), 754
Electron microscopy of human choriocarcinoma transplanted into hamster liver (Larsen, Ehrmann, and Bierring), 1109
study of "X-cells" in septal cysts of human placenta (Ruffolo et al.), 1147
Electronic cystometry for differentiating between types of urinary incontinence (Canton), 401
Embryopathies, rubella-induced, in monkeys (Delahunt and Rieser), 580
Endocervical mucus of infertile women, isolation of tubercle bacilli from (Hok et al.), 397
Endocrinology, reproductive, urinary cytology in (O'Morchoe and O'Morchoe), 479
Endometrial carcinoma arising in ovarian endometrioma (Blanchard), 908
enzyme activities related to steroidogenesis in postmenopausal patients with and without (Plotz et al.), 182
epithelium, regeneration of, role of stroma in (Baggish, Pauerstein, and Woodruff), 459
glandular cell, human, ultrastructure of, during menstrual cycle (Cavazos et al.), 833
Endometrioma, ovarian, endometrial carcinoma arising in (Blanchard), 908
Endometriosis, serosal, of Fallopian tubes (Sheldon, Wilson, and Dockerty), 882 (Comm. in brief)
Endometrium, adenocarcinoma of (Wade, Kohorn, and Morris), 869
enzyme histochemistry of, including hormone-induced changes (Thiery and Willighagen), 173
Stage I, management of (Copenhaver and Barsamian), 864
carbonic anhydrase concentration in, after oral progestins (Nicholls and Board), 829
hyperplasia of, and Brenner's tumor in postmenopausal women (Gupta and Levine), 290 (Comm. in brief)
and trophoblast, ultrastructure of, in invasive hydatidiform mole (chorioadenoma destruens) (Wynn and Harris), 1125
Enzyme activities related to steroidogenesis in postmenopausal ovaries of patients with and without endometrial carcinoma (Plotz et al.), 182
histochemistry of adenocarcinoma of endometrium including hormone-induced changes (Thiery and Willighagen), 173
Epidermization, induced, in mouse uterine cervix, mechanism of (Graham), 470
Epinephrine and norepinephrine, urinary, alterations of (Zuspan, Nelson, and Ahlquist), 709
Epithelium, endometrial, regeneration of, role of stroma in (Baggish, Pauerstein, and Woodruff), 459
Error in sonographic fetal mensuration and estimation of growth, source (Hellman et al.), 662
Erythrocytes, maternal, for fetal transfusion, advantages of use of (Hutchinson, Maxwell, and Turner), 702
Estriol, measurement of, in plasma by gas-liquid chromatography (Ratanasopa et al.), 295
urinary, in pregnancy, gas chomatographic estimation of (Scommegna and Chattoraj), 1087
Estrogen excretion, urinary, in pregnancy, factors influencing (Talbert and Easterling), 923
in puerperium (Carpenter), 303
-progestin combinations, effect of cyclic therapy with, on thyroid function (Margulis and Leach), 168
on clotting factors (Robinson), 163
storage in fat (Twombly et al.), 785
water-soluble, in vitro blocking and oxytocic effects of, on human, mouse, and rat uteri (Mossman and Conrad), 539
Examinations, American Board of Obstetrics and Gynecology, 154, 458, 744, 1046 (Items)
Examining patient in bed, new Graves speculum for (Cauble), 598 (Comm. in brief)
Excessive coronary atherosclerosis, development of, time interval from castration in premenopausal women to (Parrish et al.), 155
Excretion, hormonal, under clomiphene treatment (Bret and Coiffard), 91
urinary estrogen, in puerperium (Carpenter), 303
of luteinizing hormone, effect of 6α-methyl-17α-hydroxyprogesterone on (Mishell), 86
Exenteration, pelvic, for advanced carcinoma of cervix (Ingiulla and Cosmi), 1083

F

Fallopian tubes, serosal endometriosis of (Sheldon, Wilson, and Dockerty), 882 (Comm. in brief)
Fat, estrogen storage in (Twombly et al.), 785
Fatty acids from placentas after intrauterine death, analysis of (Robertson and Sprecher), 247
Fellowships in maternal and child health, 1046 (Items)

Fertility, control of, by temporary occlusion of oviduct (Hefnawi, Fuchs, and Laurence), 421
and family planning, conference on—world review, 154 (Items)
Fetal arrhythmia, data on significance of (Komáromy et al.), 79
blood calcium responses to maternal calcium infusion in sheep (Bawden and Wolkoff), 55
heart rates and rhythms, abnormal, prior to labor (Kendall), 71
membranes, rupture of (Meudt and Meudt), 562
mensuration and estimation of growth, sonographic, sources of error in (Hellman et al.), 662
scalp sampling in labor, assessment of (Paul, Gare, and Whetham), 745
transfusion, maternal erythrocytes for, advantages of use of (Hutchinson, Maxwell, and Turner), 702
Fetus during labor, oxygen transfer from mother to (Newman et al.), 61
and newborn infant, human, effects of maternal metabolic acidosis on (Blechner et al.), 46
Rh antigens in 38-day-old, demonstration of (Bergström et al.), 130 (Current investigation)
Fibroma, bilateral ovarian, in 5-year-old (Bower and Erickson), 880 (Comm. in brief)
Fistulas, vesical, ureteral, and rectal, following operation for cancer of cervix (Ingiulla and Cosmi), 1078
vesicovaginal, John Peter Mettauer and first successful closure of, in the United States (Kight), 885
Folic acid metabolism in pregnancy (Stone et al.), 638
Foundation Prize Award of South Atlantic Association of Obstetricians and Gynecologists, 458 (Items)
Fractions, urinary testosterone (Wieland et al.), 489
Free amino acids, concentration of, in rabbit blastocyst fluid (Lesinski et al.), 280

G

Gas chromatographic estimation of urinary estriol in pregnancy (Scommegna and Chattoraj), 1087
-liquid chromatography, measurement of estriol in plasma by (Ratanasopa et al.), 295
Gases, respiratory, in maternal arterial and uterine venous blood (Cotter, Blechner, and Prystowsky), 1
Genetic defects, intrauterine diagnosis and management (Jacobson and Barter), 796
Genetics, human, some general aspects of (Stern), 604
Genitals, female, multifocal carcinoma of (Ostergard and Morton), 1006
Gestation, prolonged, preliminary observations on free amino acids in cow and calf plasma in (Foley et al.), 1106
twin oxytocin in (Niemand, Gibstein, and Rosenthal), 533
Gestational diabetes, morphologic aspects of placenta in, seen by phase-contrast microscopy (Aladjem), 341
interval, analysis of (Treloar, Behn, and Cowan), 34
Glandular cell, human endometrial, ultrastructure of, during menstrual cycle (Cavazos et al.), 833
Gonadal dysgenesis, pure, and male pseudohermaphroditism in sisters (Barr et al.), 1047

H

Head trauma, fetal, without maternal uterine injury (Watts, Clark, and McConnell), 289 (Comm. in brief)
Health, maternal and child, fellowships in, 146 (Items)
Heart rates and rhythms, abnormal fetal, prior to labor (Kendall), 71
Hematoporphyrin derivative, use of, in detection and management of cervical cancer (Gray et al.), 766
Hermaphrodite, male, generalized XY/XX/XXY chromosomal mosaicism in (Klay, Sparkes, and Lagasse), 495
Hexosamine synthesis in human placenta in vitro (Jozwik, Glowacka, and Popowicz), 258
Hip and back pain in pregnancy due to chordoma (Creasman), 1165 (Comm. in brief)
Histocompatibility antigens of aging mouse trophoblast (Simmons and Ozerkis), 271
Homeostatic role of renal-adrenal axis in bacteremic shock (Vaughn et al.), 208
Hormonal excretion under clomiphene treatment, changes in (Bret and Coiffard), 91
studies, thermographic and, of placenta in abdominal pregnancy (Beck and Birnbaum), 29
Hormone, luteinizing, urinary excretion of, effect of 6α-methyl-17α-hydroxyprogesterone on (Mishell), 86
-induced changes, enzyme histochemistry of adenocarcinoma of endometrium including (Thiery and Willighagen), 173
Hyaluronidase, intracervical injection of (Green), 337
Hydatidiform mole, invasive (chorioadenoma destruens), ultrastructure of trophoblast and endometrium in (Wynn and Harris), 1125
5-Hydroxytryptamine, mechanism of inhibitory action of, on placental function (Honey, Robson, and Sullivan), 250
Hyperphenylalaninemia, role of, in pregnant women as cause of mental retardation in offspring (Waisman), 431 (Pertinent comments)
Hyperplasia of endometrium and Brenner's tumor in postmenopausal woman (Gupta and Levine), 290 (Comm. in brief)
Hypertrichosis, brain damage, and polycystic ovaries (Bartuska et al.), 387
Hysterectomy, radical, and pelvic lymphadenectomy with and without preoperative radiotherapy for cervical cancer (Parker et al.), 933
Wertheim (Kelso and Funnell), 106
Human genetics, some general aspects of (Stern), 604

I

Imipramine, basic, lipid-soluble drug, placental transfer of (Douglas and Hume), 573
Immunoglobulin G concentration in newborn, effect of mode of delivery on (Jones and Payne), 1160
Immunologic pregnancy slide test, new, evaluation of (Goetschel), 1101
problem of pregnancy. III. Effect of pregnancy survival of adult and neonatal skin grafts (Simmons et al.), 266
IV. Histocompatibility antigens of aging mouse trophoblast (Simmons and Ozerkis), 271
Incontinence, urinary, electronic cystometry for differentiating between types of (Canton), 401
Induced epidermization, mechanism of, in mouse uterine cervix (Graham), 470
Induction of labor, cervical temperature and (Gardiner), 551
Infarction, placental, and toxemia of pregnancy (Wentworth), 318
Infections of urinary tract in pregnancy and puerperium, special aspects in diagnosis and treatment (Vicchi), 994
Infertile women, endocervical mucus of, isolation of tubercle bacilli from (Hok et al.), 397
Inguinal, perineal, and abdominal cancer surgery, combined, positioning and some variations in surgical technique used for (Spratt, Donegan, and Rapp), 417
Inhibitory action of 5-hydroxytryptamine of placental function, mechanism of (Honey, Robson, and Sullivan), 250
Injection, intracervical, of hyaluronidase (Green), 337
Internship in obstetrics-gynecology (Lund and Donovan), 683
Interval, gestational, analysis of (Treloar, Behn, and Cowan), 34

Intracervical injection of hyaluronidase (Green), 337
Intrauterine contraceptive device, comparative study on use of, in different socioeconomic groups (Mateos-Candano et al.), 291 (Comm. in brief)
new (Knoch), 428
reappraisal of (Hall), 808
death, analysis of fatty acids from placentas after (Robertson and Sprecher), 247
device, influence of, on ovum and sperm distribution in monkey, observations on (Mastroianni et al.), 649
diagnosis and management of genetic defects (Jacobson and Barter), 796
transfusion (Bishop, Weber, and Israel), 615
amniocentesis and, fetal ascites complicating (Killam, Grillo, and Summerson), 292 (Comm. in brief)
Items, 154, 458, 744, 1046
IUD in different socioeconomic groups, comparative study on use of (Mateos-Candano et al.), 291 (Comm. in brief)

K

Karyotypes, stem-line, in 4 carcinomas of cervix uteri (Atkin, Baker, and Wilson), 506
Knot, syncytial—sign of active syncytial proliferation (Aladjem), 350

L

Labor, abnormal fetal heart rates and rhythms prior to (Kendall), 71
fetal scalp sampling during, assessment of (Paul, Gare, and Whetham), 745
induction of, cervical temperature and (Gardiner), 551
oxygen transfer from mother to fetus during (Newman et al.), 61
Pentobarbital anesthesia in (Seear), 952
prediction of onset of, vaginal cytology for (Jing, Kaufman, and Franklin,), 546
premature, and meperidine analgesia (Kaltreider), 989
threatened, effect of alcohol on (Fuchs et al.), 627
Light stimulation, periodic, possibility of perfect rhythm method of birth control by (Dewan), 1016
Lipid metabolism, human placental (Robertson and Sprecher), 247
Liver, hamster, human choriocarcinoma transplanted into, electron microscopy of (Larsen, Ehrmann, and Bierring), 1109
Luteal cell at term (Green, Garcilazo, and Maqueo), 855
Luteinizing hormone, urinary excretion of, effect of 6α-methyl-17α-hydroxyprogesterone on (Mishell), 86
Lymphadenectomy, pelvic, and radical hysterectomy with and and without preoperative radiotherapy for cervical cancer (Parker et al.), 933

M

Malmström's vacuum-tractor (vacuum extractor), an appraisal (Earn), 744 (Current developments)
Maternal and child health, fellowships, 146 (Items)
erythrocytes, advantages of use of, for fetal transfusion (Hutchinson, Maxwell, and Turner), 702
Mechanism of induced epidermization in mouse uterine cervix (Graham), 470
Membranes, basement (amniotic, trophoblastic, capillary) and adjacent tissue in term placenta (Verbeek, Robertson, and Haust), 1136
fetal, rupture of (Meudt and Meudt), 562
Menstural cycle carbohydrate metabolism (Spellacy, Carlson, and Schade), 382
ultrastructure of human endometrial glandular cell during (Cavazos et al.), 833
Mental retardation in offspring, role of hyperphenylalaninemia in pregnant women as cause (Waisman), 431 (Pertinent comments)
Meperidine analgesia and premature labor (Kaltreider), 989
Mesonephric adenocarcinoma of vagina (Nix and Wright), 885
Metabolic aciosis, maternal, effects of, on human fetus and newborn infant (Blechner et al.), 46
balance studies with norethynodrel and chlormadinone acetate (Lecocq, Bradley, and Goldzieher), 374
Metabolism, carbohydrate, menstrual cycle (Spellacy, Carlson, and Schade), 382
folic acid, in pregnancy (Stone et al.), 638
human placental lipid (Robertson and Sprecher), 247
6α-Methyl-17α-hydroxyprogesterone, effect of, on urinary excretion of luteinizing hormone (Mishell), 86
Metreurynter-induced abortions at midpregnancy (Manabe), 557
Mettauer, John Peter, and first successful closure of vesicovaginal fistula in United States (Kight), 885
Microscopic, electron, study of "X-cells" in septal cysts of human placenta (Ruffolo et al.), 1147
Microscopy, electron, of human choriocarcinoma transplanted into hamster liver (Larsen, Ehrmann, and Bierring,) 1109
phase-contrast, morphologic aspects of placenta in gestational diabetes seen by (Aladjem), 341
Midforceps operation, evaluation of (Cooke), 327
Midpregnancy, metreurynter-induced abortion at (Manabe), 557
Mole, hydatidiform, invasive (chorioadenoma destruens), ultrastructure of trophoblast and endometrium in (Wynn and Harris), 1125
Mosaic, XO/XY, individuals and their fathers, chromosome aberrations in (Starkman and Jaffe), 1056
Mosaicism, chromosmal, generalized XY/XX/XXY, in male hermaphrodite (Klay, Sparkes, and Lagasse), 495
Mucus, endocervical, of infertile women, isolation of tubercle bacilli from (Hok et al.), 397
Muscle, smooth, in human cervix and uterus, histologic and chemical studies of (Rorie and Newton), 466
Mycoplasma hominis septicemia associated with abortion (Harwick et al.), 725 (Current investigation)
Myomectomy, abdominal (Brown, Malkasian, and Symmonds), 126

N

Neoplasia of uterine cervix, radioautographic studies in (Iliya and Azar,), 515
Nerve, parasympathetic, stimulation, effect of, on uterine vascular bed (Greiss et al.), 1067
Nitrous oxide, Pentothal, and succinylcholine anesthesia at cesarean section, observations on (Stenger et al.), 690
Norepinephrine, epinephrine and, urinary, alterations of (Zuspan, Nelson, and Ahlquist), 709
Norethindrone-mestranol therapy, cyclic, ovarian morphology following (Zussman, Forbes, and Carpenter), 99
Norethynodrel and chlormadinone acetate, metabolic balance studies with (Lecocq, Bradley, and Goldzieher), 374

O

Obstetric responsibility, widening scope of (McGaughey), 728 (Pertinent comments)
Obstetrics and gynecology, clinical use of ultrasound in (Taylor et al.), 671
internship in (Lund and Donovan), 683
today's vista (Marchetti), 599
Obstruction, ureteral, due to radiation (Graham and Abad), 409

Occlusion of oviducts, temporary, control of fertility by (Hefnawi, Fuchs, and Laurence), 421
Offspring, mental retardation in, role of hyperphenylalaninemia in pregnant women as cause of (Waisman), 431 (Pertinent comments)
Operation, midforceps, evaluation of (Cooke), 327
Oral progestins, carbonic anhydrase concentration in endometrium after (Nicholls and Board), 829
Ovarian adenofibroma, varied anatomical types of (Wolfe and Seckinger), 121
carcinoma, disseminated, long-term survival in (Elahi et al.), 522
endometrioma, endometrial carcinoma arising in (Blanchard), 908
fibromas, bilateral, in 5-year-old (Bower and Erickson), 880 (Comm. in brief)
function, clomiphene citrate for improvement of (Jones and Moraes-Ruehsen), 814
in human pregnancy (Mikhail and Allen), 308
morphology following cyclic norethindrone-mestranol therapy (Zussman, Forbes, and Carpenter), 99
tumors in infancy, childhood, and adolescence (Moore, Schifrin, and Erez), 913
Ovary, cystadenofibroma of (Herrmann), 117
postmenopausal, of patients with and without endometrial carcinoma, enzyme activities related to steroidogenesis in (Plotz et al.), 182
sclerocystic, clinical aspects of evaluation and treatment (Minton, Whittlesey, and Jamison), 390
ultrastructure of (Green, Garcilazo, and Maqueo), 855
Oviducts, occlusion of, temporary, control of fertility by (Hefnawi, Fuchs, and Laurence), 421
Ovulation and reproduction in mice, effect of 28 hour day on (Kaiser), 772
Ovum and sperm distribution in monkey, influence of intrauterine device on, further observations on (Mastroianni et al.), 649
Oxygen consumption, placental, in vitro (Friedman and Sachtleben), 576
transfer from mother to fetus during labor (Newman et al.), 61
Oxytocic effects, blocking and, in vitro, of water-soluble estrogens on human, mouse, and rat uteri (Mossman and Conrad), 539
(Friedman and Sachtleben), 576
in twin gestation (Niemand, Gibstein, and Rosenthal), 533

P

Pain, back and hip, in pregnancy, due to chordoma (Creasman), 1165 (Comm. in brief)
Parasympathetic nerve stimulation, effect of, on uterine vascular bed (Greiss et al.), 1067
Parturition, unshaven perineum at (Long), 333
Patient presentations: panel discussion, 907
Pelvic exenteration for advanced carcinoma of cervix (Ingiulla and Cosmi), 1083
Pentobarbital anesthesia in labor (Seear), 952
Pentothal, nitrous oxide, and succinylcholine anesthesia at cesarean section, observations on (Stenger et al.), 690
Peptic ulcer, perforated, in pregnancy (Dilts, Coopersmith, and Sweitzer), 293 (Comm. in brief)
Perforated peptic ulcer in pregnancy (Dilts, Coopersmith, and Sweitzer), 293 (Comm. in brief)
Perineal, inguinal, and abdominal cancer surgery, combined, positioning and some variations in surgical technique used for (Spratt, Donegan, and Rapp), 417
Perineum, unshaven, at parturition (Long), 333
Pertinent comments, 431-433, 728-731
Phase-contrast microscopy, morphologic aspects of placenta in gestational diabetes seen by (Aladjem), 341
Phospholipids, placental, thin-layer chromatography of (Nelson, Kenimer, and Jones), 262
Placenta in abdominal pregnancy, thermographic and hormonal studies on (Beck and Birnbaum), 29
in gestational diabetes, morphologic aspects of, seen by phase-contrast microscopy (Aladjem), 341
human, septal cysts of, "X-cells" in, electron microscopic study of (Ruffolo et al.), 1147
in vitro, hexosamine synthesis in (Jozwik, Glowacka, and Popowicz), 258
after intrauterine death, analysis of fatty acids from (Robertson and Sprecher), 247
term, basement membranes and adjacent tissue in (Verbeek, Robertson, and Haust), 1136
Placental function, mechanism of inhibitory action of 5-hydroxytryptamine on (Honey, Robson, and Sullivan), 250
infarction and toxemia of pregnancy (Wentworth), 318
lipid metabolism, human. II. Analysis of fatty acids from placentas after intrauterine death (Robertson and Sprecher), 247
oxygen consumption in vitro, III. Oxytocin effect (Friedman and Sachtleben), 576
phospholipids, thin-layer chromatography of (Nelson, Kenimer, and Jones), 262
slices at term, uptake of α-aminoisobutyric acid in (Litonjua et al.), 242
transfer of imipramine, basic, lipid-soluble drug (Douglas and Hume), 573
Plasma, cow and calf, free amino acids in, in prolonged gestation, preliminary observations (Foley et al.), 1106
measurement of estriol in, by gas-liquid chromatography (Ratanasopa et al.), 295
volume prediction in normal pregnancy (Smith and Yarbrough), 18
Polycystic ovaries, brain damage, hypertrichosis and (Bartuska et al.), 387
Postmenopausal ovaries of patients with and without endometrial carcinoma, enzyme activities related to steroidogenesis in (Plotz et al.), 182
woman, hyperplasia of endometrium and Brenner's tumor in (Gupta and Levine), 290 (Comm. in brief)
Prediction of onset of labor, vaginal cytology for (Jing, Kaufman, and Franklin), 546
Pregnancy, abdominal, placenta in, thermographic and hormonal studies of (Beck and Birnbaum), 29
previous, normal intrauterine pregnancy following (Kirkland and Glover), 910
at altitude, observations on (Cotter, Blechner, and Prystowsky), 1
back and hip pain in, due to chordoma (Creasman), 1165 (Comm. in brief)
cervical (Price and Webster), 134 (Clinical problems)
early, interruption of, vacuum aspiration method for (Vladov), 202
folic acid metabolism in (Stone et al.), 638
human ovarian function in (Mikhail and Allen), 308
immunologic problem of (Simmons and Ozerkis), 271
(Simmons et al.), 266
intrauterine, normal, following previous abdominal pregnancy (Kirkland and Glover), 910
normal, plasma volume prediction in (Smith and Yarbrough), 18
and toxemic, angiotensin blood levels in (Massani et al.), 313
ureteral contractility during (Sala and Rubí), 228
perforated peptic ulcer in (Dilts, Coopersmith, and Sweitzer), 293 (Comm. in brief)
renin-angiotensin system in, influence of high renin substrate levels on (Helmer and Judson), 9
respiratory problems in (Novy and Edwards), 1024 (Current developments)

Pregnancy—Cont'd
slide test, immunologic, new, evaluation of (Goetschel), 1101
survival of adult and neonatal skin grafts (Simmons et al.), 266
toxemia of, placental infarction and (Wentworth), 318
tubal, current factors in causation of (Kleiner and Roberts), 21
untreated asymptomatic bacteriuria during, postpartum renal status of women with (Cobbs et al.), 221
urinary estriol in, gas chromatographic estimation of (Scommegna and Chattoraj), 1087
estrogen excretion in, factors influencing (Talbert and and Easterling), 923
tract infections in, special aspects in diagnosis and treatment (Vicchi), 994
vitamin K_1 in, use of (Owen et al.) 368
Pregnant uterus at term, anterior sacculation of (Cehelsky and Mason), 1000
women, drug addiction in (Perlmutter), 569
Premature labor, threatened, effect of alcohol on (Fuchs et al.), 627
Prematurity, first international conference on, 146 (Items)
Premenopausal women, time interval from castration in, to development of excessive coronary atherosclerosis (Parrish et al.), 155
Prenatal screening, routine, for atypical antibodies (Allen, Dubner, and Mockler), 274
Pre–teen-age female, carcinoma of cervix in (Rowley and Barnes), 878 (Comm. in brief)
Progestins, oral, carbonic anhydrase concentration in endometrium after (Nicholls and Board), 829
Pseudohermaphroditism, male, and pure gonadal dysgenesis in sisters (Barr et al.), 1047
Puerperium, urinary estrogen excretion in (Carpenter), 303
tract infections in, special aspects in diagnosis and treatment (Vicchi), 994

R

Radiation, ureteral obstruction due to (Graham and Abad), 409
Radical Wertheim hysterectomy (Kelso and Funnell), 106
Radioautographic studies in neoplasia of uterine cervix (Iliya and Azar), 515
Radiotherapy, preoperative, radical hysterectomy and pelvic lymphadenectomy with and without, for cervical cancer (Parker et al.), 933
Rectal fistulas following operation for cancer of cervix (Ingiulla and Cosmi), 1078
Regeneration of endometrial epithelium, role of stroma in (Baggish, Pauerstein, and Woodruff), 459
Renal status, postpartum, of women with untreated asymptomatic bacteriuria during pregnancy (Cobbs et al.), 221
-adrenal axis, homeostatic role of, in bacteremic shock (Vaughn et al.), 208
Renin substrate levels, high, influence of, on renin-angiotensin system in pregnancy (Helmer and Judson), 9
-angiotensin system in pregnancy, influence of high renin substrate levels on (Helmer and Judson), 9
Reproduction, ovulation and, in mice, effect of 28 hour day on (Kaiser), 772
Society for Study of, new 458 (Items)
Reproductive endocrinology, urinary cytology in (O'Morchoe and O'Morchoe), 479
Respiratory gases in maternal arterial and uterine venous blood (Cotter, Blechner, and Prystowsky), 1
problems in pregnancy (Novy and Edwards), 1024 (Current developments)
Responsibility, obstetric, widening scope of (McGaughey), 728 (Pertinent comments)
Rh antigens in 38-day-old fetus, demonstration of (Bergström et al.), 130 (Current investigations)
Rhythm method of birth control, perfect, possibility of, by periodic light stimulation (Dewan), 1016
abnormal, fetal heart rates and, prior to labor (Kendall), 71
Rubella-induced embryopathies in monkeys (Delahunt and Rieser), 580
Rupture of fetal membranes (Meudt and Meudt), 562
Ruptured amnion, morphologic studies of (Wynn, Sever, and Hellman), 359

S

Sacculation, anterior, of pregnant uterus at term (Cehelsky and Mason), 1000
posterior, of uterus, in patient with double uterus (Wood), 907
Scalp sampling, validity of (Gare, Whetham, and Henry), 722 (Current investigation)
Sclerocystic ovaries, clinical aspects of evaluation and treatment (Minton, Whittlesey, and Jamison), 390
Screening for asymptomatic bacteriuria during antepartum care (Merrill et al.), 216
for atypical antibodies, routine prenatal (Allen, Dubner, and Mockler), 274
Septicemia, Mycoplasma hominis, associated with abortion (Harwick et al.), 725 (Current investigation)
Serosal endometriosis of Fallopian tubes (Sheldon, Wilson, and Dockerty), 882 (Comm. in brief)
Shock, bacteremic, homeostatic role of renal-adrenal axis in (Vaughn et al.), 208
Skin grafts, adult and neonatal, pregnancy survival of (Simmons et al.), 266
Smooth muscle in human cervix and uterus, histologic and chemical studies of (Rorie and Newton), 466
Society for Study of Reproduction, new, 458 (Items)
Sonographic fetal mensuration and estimation of growth, sources of error in (Hellman et al.), 662
South Atlantic Association of Obstetricians and Gynecologists, Foundation Prize Award of 458 (Items)
transactions of twenty-ninth annual meeting, 885-980
Speculum, modified Graves, new, for examining patient in bed (Cauble), 598 (Comm. in brief)
Sperm distribution, ovum and, in monkey, further observations on influence of intrauterine device on (Mastroianni et al.), 649
Stage I adenocarcinoma of endometrium, management of (Copenhaver and Barsamian), 864
Stem-line karyotypes of 4 carcinomas of cervix uteri (Atkin, Baker, and Wilson), 506
Sterility studies, outpatient, critical analysis of (Smith and Horger), 985
of uterine cavity (Ansbacher, Boyson, and Morris), 394
Steroidogenesis, enzyme activities related to, in postmenopausal ovaries of patients with and without endometrial carcinoma (Plotz et al.), 182
Stroma, role of, in regeneration of endometrial epithelium (Baggish, Pauerstein, and Woodruff), 459
Substrate levels, renin, high, influence of, on renin-angiotensin system in pregnancy (Helmer and Judson), 9
Succinylcholine anesthesia, Pentothal, nitrous oxide, and, at cesarean section, observations on (Stenger et al.), 690
Survival, long-term, in disseminated ovarian carcinoma (Elahi et al.), 522
pregnancy, of adult and neonatal skin grafts (Simmons et al.), 266
Syncytial knot—sign of active syncytial proliferation (Aladjem), 350
Synthesis, hexosamine, in human placenta in vitro (Jozwik, Glowacka, and Popowicz), 258

T

Temperature, cervical, and induction of labor (Gardiner), 551
Template capacity of chromatin from normal and neoplastic tissues (Warren and Barker), 198
Term, luteal cell at (Green, Garcilazos, and Maqueo), 855
Testosterone fractions, urinary (Wieland et al.), 489
Thermographic and hormonal studies of placenta in abdominal pregnancy (Beck and Birnbaum), 29
Thin-layer chromatography of placental phospholipids (Nelson, Kenimer, and Jones), 262
Threatened premature labor, effect of alcohol on (Fuchs et al.), 627
Thyroid function, effect of cyclic therapy with estrogen-progestin combinations on (Margulis and Leach), 168
Time interval from castration in premenopausal women to development of excessive coronary atherosclerosis (Parrish et al.), 155
Tissues, normal and neoplastic, template capacity of chromatin from (Warren and Barker), 198
Toxemic pregnancies, normal and, angiotensin blood levels in (Massani et al.), 313
placental infarction and (Wentworth), 318
Tract, urinary, female, anaerobic bacteria in, observations on (Slotnick and Mackey), 413
Transabdominal amniocentesis, hazards of fetal-maternal transfusion after (Cassady et al.), 284
Transactions of ninetieth annual meeting of American Gynecological Society, 599-721, 745-807
of twenty-ninth annual meeting of South Atlantic Association of Obstetricians and Gynecologists, 885-980
Transfer, oxygen, from mother to fetus during labor (Newman et al.), 61
placental, of imipramine, basic, lipid-soluble drug (Douglas and Hume), 573
Transfusion, fetal, maternal erythrocytes for, advantages of use of (Hutchinson, Maxwell, and Turner), 702
fetal-maternal, hazards of, after transabdominal amniocentesis (Cassady et al.), 284
intrauterine (Bishop, Weber, and Israel), 615
amniocentesis and, fetal ascites complicating (Killam, Grillo, and Summerson), 292 (Comm. in brief)
Trauma, fetal head, without maternal uterine injury (Watts, Clark, and McConnell), 289 (Comm. in brief)
Trophoblast and endometrium, ultrastructure of, in invasive hydatidiform mole (chorioadenoma destruens) (Wynn and Harris), 1125
mouse, aging, histocompatibility antigens of (Simmons and Ozerkis), 271
Trophoblastic membrane and adjacent tissue in term placenta (Verbeek, Robertson, and Haust), 1136
tumors, benign, management of (Llewellyn-Jones), 589
Tubal pregnancy, current factors in causation of (Kleiner and Roberts), 21
Tubercle bacilli, isolation of, from endocervical mucus of infertile women (Hok et al.), 397
Tubes, Fallopian, serosal endometriosis of (Sheldon, Wilson, Dockerty), 882 (Comm. in brief)
Tumors, benign trophoblastic, management of (Llewellyn-Jones), 589
Brenner's hyperplasia of endometrium and, in postmenopausal woman (Gupta and Levine), 290 (Comm. in brief)
ovarian, in infancy, childhood, and adolescence (Moore, Schifrin, and Erez), 913
Twin gestation, oxytocin in (Niemand, Gibstein, and Rosenthal), 533
Twins, combined abdominal and vaginal delivery of (Casper and Guttmacher), 1020 (Clinical problems)
locked, case of (Traylor), 909

U

Ulcer, perforated peptic, in pregnancy (Dilts, Coopersmith, and Sweitzer), 293 (Comm. in brief)
Ultrasound in obstetrics and gynecology, clinical use of (Taylor et al.), 671
Ultrastructure of human endometrial glandular cell during menstrual cycle (Cavazos et al.), 833
ovary. II. Luteal cell at term (Green, Garcilazo, and Maqueo), 855
Unshaven perineum at parturition (Long), 333
Uptake of α-aminoisobutyric acid in placental slices at term (Litonjua et al.), 242
Ureteral contractility during normal pregnancy (Sala and Rubí), 228
fistulas following operation for cancer of cervix (Ingiulla and Cosmi), 1078
function in pregnant women. II. Ureteral contractility during normal pregnancy (Sala and Rubí), 228
obstruction due to radiation (Graham and Abad), 409
Urinary calculi in pregnancy, incidence and significance of (Harris and Dunnihoo), 237
cytology in reproductive endocrinology (O'Morchoe and O'Morchoe), 479
epinephrine and norepinephrine, alterations of (Zuspan, Nelson, and Ahlquist), 709
estriol in pregnancy, gas chromatographic estimation of (Scommegna and Chattoraj), 1087
estrogen excretion in pregnancy, factors influencing (Talbert and Easterling), 923
in puerperium (Carpenter), 303
excretion of luteinizing hormone, effect of 6α-methyl-17α-hydroxyprogesterone on (Mishell), 86
incontinence, electronic cystometry for differentiating between various types of (Canton), 401
testosterone fractions (Wieland et al.), 489
tract, female, anaerobic bacteria in, observations on (Slotnick and Mackey), 413
infections in pregnancy and puerperium, special aspects in diagnosis and treatment (Vicchi), 994
Uterine cavity, cryosurgery of (Cahan and Brockunier), 138 (Current developments)
sterility of (Ansbacher, Boyson, and Morris), 394
cervix, mouse, mechanism of induced epidermization in (Graham), 470
neoplasia of, radioautographic studies in (Iliya and Azar), 515
vascular bed, effect of acetylcholine on (Greiss et al.), 1073
parasympathetic nerve stimulation on (Greiss et al.), 1067
venous blood, maternal arterial and, respiratory gases in (Cotter, Blechner, and Prystowsky), 1
Uterus, double, posterior sacculation of uterus in patient with (Wood), 907
gravid, rupture (Claiborne and Schelin), 900
human cervix and, histologic and chemical studies of smooth muscle of (Rorie and Newton), 466
posterior sacculation of, in patient with double uterus (Wood), 907
pregnant, at term, anterior sacculation of (Cehelsky and Mason), 1000

V

Vacuum aspiration method for interruption of early pregnancy (Vladov), 202
extractor—appraisal of Malmström's vacuum-tractor (Earn), 744 (Current developments)
Vagina, artificial (Evans), 944
Vaginal and abdominal delivery, combined, of twins (Casper and Guttmacher), 1020 (Clinical problems)

Vaginal—Cont'd
cytology for prediction of onset of labor (Jing, Kaufman, and Franklin), 546
septum, transverse, congenital, Z-plasty for correction of (Garcia), 1164 (Comm. in brief)
Vascular bed, uterine, effect of acetylcholine on (Greiss et al.), 1073
parasympathetic nerve stimulation on (Greiss et al.), 1067
Venous blood, uterine, maternal arterial and, respiratory gases in (Cotter, Blechner, and Prystowsky), 1
Vesical fistulas following operation for cancer of cervix (Ingiulla and Cosmi), 1078
Vesicovaginal fistula, John Peter Mettauer and the first successful closure of, in the United States (Kight), 885
Virologic study, clinical and, of patients seen at Yale–New Haven Hospital Women's Clinic (1963-1964) (Wade, Saturno, and Hsiung), 595 (Comm. in brief)
Vitamin K_1 in pregnancy, use of (Owen et al.), 368
Volume prediction, plasma, in normal pregnancy (Smith and Yarbrough), 18

W

Water-soluble estrogens, in vitro blocking and oxytocic effects of, on human, mouse, and rat uteri (Mossman and Conrad), 539
Wertheim hysterectomy, radical (Kelso and Funnell), 106

X

"X-cells" in septal cysts of human placenta, electron microscopic study of (Ruffolo et al.), 1147
XO/XY mosaic individuals and their fathers, chromosome aberrations in (Starkman and Jaffe), 1056
XX sex chromosome complement, anencephalic male with (Arias-Bernal and Jones), 877 (Comm. in brief)
XY/XX/XXY chromosomal mosaicism in male hermaphrodite, generalized (Klay, Sparkes, and Lagasse), 495

Z

Z-plasty for correction of congenital transverse vaginal septum (Garcia), 1164 (Comm. in brief)
